STAT

Dear Richard:

Time to update you on your next assignment. I believe I will have positive information for you when you arrive for the bureau chief's conference. Basically, it is still a matter of arranging the timing. I suggest we get together for a few minutes the first day you will be in the office for the conference to discuss some of the aspects. I also urge extreme discretion in discussing the situation as this is a delicate period for the incumbent. I also expect to be ready to announce your replacement by mid-April.

As for [redacted] I have sent Gary's file to OSO. Also, I have laid the groundwork for consideration by NPIC. I am hopeful that we will have some possibilities for him for a rotation to another office within a few weeks. His idea of applying for Hineman's Executive Assistant position was a non-starter; they were looking for a GS-12 or GS-13 and required immediate interviews. It just wasn't in the cards.

STAT

Sincerely,

[redacted]

Director
